

The Austrian School In The American Economic Review (1911-2004)

Greg Kaza

Abstract:

A reference to Austrian or neo-Austrian economists has appeared in the American Economic Review, a leading U.S. economic journal, each year since it was first published in 1911. The first reference (1911) was to Schumpeter, the last (2004) to Hayek. The work of Bohm-Bawerk, Menger, Von Mises, Von Wieser and Rothbard are also cited in the AER.
